Tax Lists for 1788 & 1789

This was made from a photocopy of the original tax lists, enlarged and gone over with black ink and then reduced to 8½ by 11 inches for printing.

There are probably some who would like a copy of the page listing their ancestor or kinsman and good copies from the original are difficult at best. This will help in that respect.

The first 15 pages are for 1788 with page 16 left blank intentionally. Pages 17 thru 30 are for the year 1789.

Information is as follows:

Date of listing

Surname and given name

Number of Whites above 16

Number of blacks above 16

Number of blacks between 12 & 16

Horses and mules

Wheels-Chairs

Wheels-Phaeton

Wheels-Chariot

Stud horses

At end of each year is also some data on practicing physicians and surgeons and apothecaries and lawyers.
